

Rolling Pet Carrier

User Manual

For Cats and Small Dogs

Detachable Trolley · Soft-Sided Carrier · Everyday Outings

WELCOME

Thank you for choosing the Bella & Pal® Rolling Pet Carrier with Detachable Trolley. This manual helps you set up, use, clean, and care for your carrier safely for everyday outings, vet visits, road trips, and cabin travel prep.

* Quick reminder

Introduce the carrier to your pet at home before travel. Let them explore it gradually, and always supervise your pet while using the carrier.

What's Included

Detachable trolley base
Removable base with telescopic handle for rolling support.

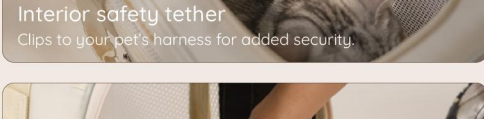

Shoulder strap
Use when carrying the soft-sided body without the trolley base.

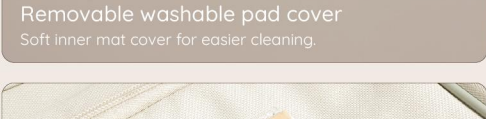

Soft-sided carrier body
The main carrier compartment for cats and small dogs.

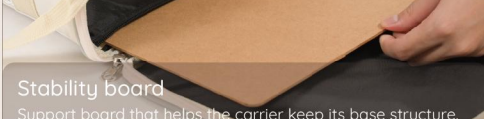

Smooth-rolling wheels
Bottom wheels for moving across smoother surfaces.

Interior safety tether
Clips to your pet's harness for added security.

Removable washable pad cover
Soft inner mat cover for easier cleaning.

Stability board
Support board that helps the carrier keep its base structure.

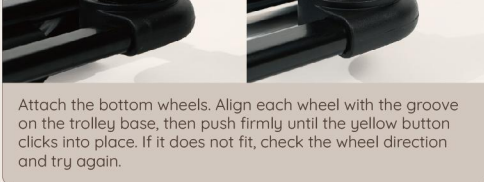

Side pocket and ID card
For small essentials and simple pet identification.

ASSEMBLY

How to Assemble

Check that all parts are included before assembly. Make sure each wheel and strap is fully secured before placing your pet inside.

1
Attach the bottom wheels. Align each wheel with the groove on the trolley base, then push firmly until the yellow button clicks into place. If it does not fit, check the wheel direction and try again.

2
Shape the carrier body. Open the soft-sided carrier and zip up both sides to help it hold its shape.

3
Lift the telescopic handle. Pull the trolley handle up to your preferred height.

4
Secure the carrier to the trolley base. Place the carrier body on the base, unfold the bottom Velcro straps, and attach them in the correct order. Make sure all straps are fully secured before use.

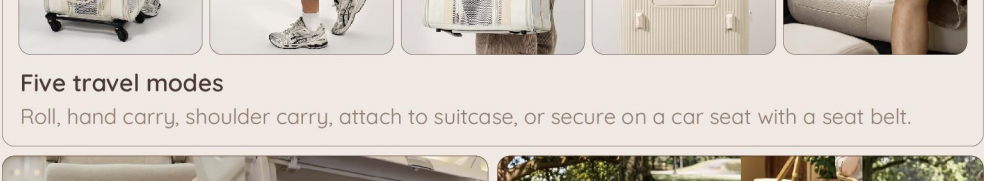

5
Use the handle securing strap if needed. Slide the vertical securing strap around the trolley handle for extra stability during rolling.

6
Do a final safety check. Confirm that the wheels click into place, the carrier is attached to the base, zippers are closed, and your pet is comfortable before moving.

PRODUCT USE

Main Features & Ways to Use

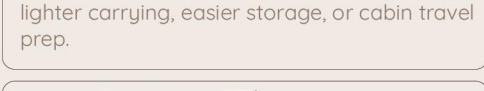

Five travel modes
Roll, hand carry, shoulder carry, attach to suitcase, or secure on a car seat with a seat belt.

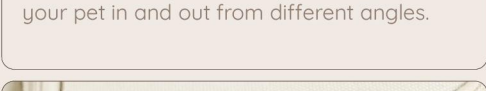

Detachable trolley base
Use the trolley base for support. Detach it for lighter carrying, easier storage, or cabin travel prep.

3-way entry
Top, front, and side openings help you guide your pet in and out from different angles.

Breathable mesh panels
Multi-sided breathable mesh supports airflow from different angles, helping keep the carrier well ventilated.

Auto-lock zippers
Auto-lock zipper pullers help the zippers stay securely in place and reduce accidental sliding during use.

Car Seat Use

Place the carrier on a stable car seat and use your car's seat belt to help keep it in place during rides. Always supervise your pet during travel.

Cabin Travel Prep

For cabin travel, remove the trolley base and use the soft-sided carrier body. Airline rules vary, so always check your airline's pet carrier requirements before flying.

SIZE & FIT

Size Guide

The best fit is not based on weight alone. Measure your pet's body length and sitting height, then make sure they have enough room to sit, turn, and rest comfortably inside.

Carrier body size	17.7 x 11 x 11 in / 45 x 28 x 28 cm
After installation	18.5 x 20.4 x 11 in / 47 x 52 x 28 cm
Telescopic handle height	20.5-39 in / 52-99 cm
Recommended pet size	Body length up to 15.7 in / 40 cm; sitting height up to 10.2 in / 26 cm
Carrier capacity	Fits pets up to 16 lb / approx. 7.3 kg
Rolling base capacity	Supports up to 33 lb / 15 kg
Best for	Most cats and small dogs. Always measure your pet before purchase.

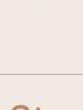

Fit Check

- Your pet should be able to sit comfortably inside the carrier.
- Your pet should have enough room to turn around and settle.
- If your pet is between sizes or has a longer body shape, measure carefully before use.

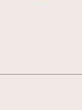

CARE INSTRUCTIONS

Cleaning & Care

Remove the stability board and faux fleece mat before cleaning. Let all parts air dry completely before storage.

Carrier body
Clean with warm, mild soapy water and air dry completely. Do not machine wash the full carrier.

Faux fleece mat
Machine wash cold on a gentle cycle. Air dry only.

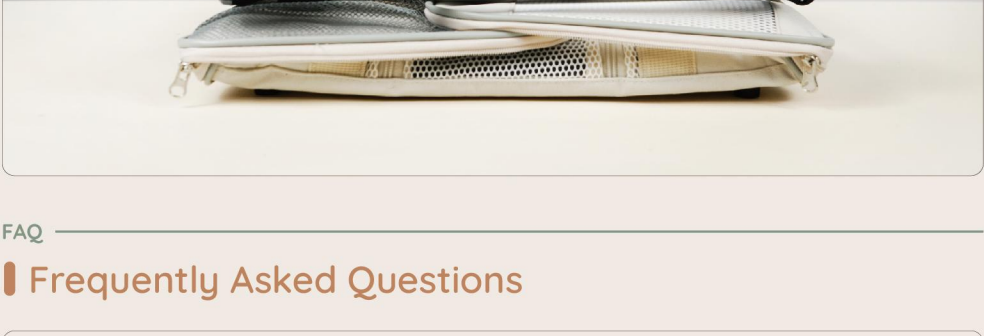

Stability board
Wipe clean with mild soapy water or a pet-safe cleaning spray. Avoid soaking it in water.

Between outings
Check for dirt, loose parts, or moisture before storing. Store in a cool, dry place.

Storage

Detach the trolley base and fold down the soft-sided carrier body when not in use, so it is easier to store at home, in the car, or with your travel gear.

FAQ

Frequently Asked Questions

Can I use the carrier without the trolley base?

Yes. The trolley base is detachable, so you can remove it when you need a lighter soft-sided carrier.

How do I attach the carrier to the trolley base?

Place the carrier body on the trolley base, then secure the bottom Velcro straps in the correct order. Make sure all straps are fully attached before rolling.

Can I wash the whole carrier in the washing machine?

No. The full carrier should not be machine washed. The faux fleece mat can be machine washed cold on a gentle cycle, while the carrier body should be cleaned with warm, mild soapy water and air dried.

Can I use it for cabin travel?

For cabin travel, remove the trolley base and check your airline's pet carrier requirements before flying. Airline rules vary by airline, aircraft, and under-seat space.

What if a wheel does not click into place?

Check the wheel direction and align it with the groove again. Push firmly until the yellow button clicks into place before use.

SAFETY NOTES

Safety Notes

- This carrier is designed for transporting pets only. It is not a toy or a permanent pet habitat.
- Do not leave your pet unattended inside the carrier.
- Attach the interior safety tether to a harness, not directly to a collar.
- Train your pet to feel comfortable in the carrier before travel.
- Regularly inspect the carrier, zippers, straps, wheels, and trolley base. Stop using it if any part becomes loose or damaged.
- Keep the carrier away from heat, open flames, and sharp objects.
- For car rides, place the carrier on a stable seat and use the car seat belt to help keep it in place. Always supervise your pet during travel.
- For cabin travel, remove the trolley base and always check your airline's pet carrier requirements before flying.
